

SANIA LATIFI AFSHAR

Junior Python Software Engineer
latifosania@gmail.com · [LinkedIn](#) · [GitHub](#)

Passionate Computer Engineering student eager to advance in the field of Software Engineering.

PROJECTS

2024

PINTEREST SCRAPER

With the knowledge I was able to acquire in Python, as my first project I was able to make a bot that manages to download my saved Pinterest boards.

2024

SUDOFARM GAME

Created with PyGame, Sudofarm is a Sudoku puzzle made for children in which instead of numbers on a 9x9 grid, the user interacts with pixel art of farm animals.
